

## **Creating a second assistant website editor role**

*Motion agreed at an All Member Assembly in April 2022.*

There have been many discussions in recent months about increasing the capacity of the website team, including the core editorial team. Right now there are three positions: the paid publications worker, a volunteer editor and volunteer assistant editor. The editor position is currently a huge amount of work for one volunteer, and would benefit from being supported by not one but two assistant editors.

For that reason we propose:

- Creation of a second assistant website editor position
- Election of that assistant website editor at this (April 2022) All Member Assembly if any candidates step forward, or the co-option of a volunteer by the Steering Group to fill in the role until an election at the next All Member Assembly.
